

JUNIOR BUSINESS ANALYST for Capital Markets Solutions

***** JOB DESCRIPTION *****

KARTESY is a Foreign company providing Services in Capital Markets Software solutions. We specialize in "MUREX" Solutions.

For the office in "Tunisia - Sousse" KARTESY is looking for fresh-graduated engineers/Business School students.

Profiles with experience on Financial Software are welcome.

***** YOUR ROLE *****

As a Business Analyst within KARTESY Consulting Team, your aim is to ensure the overall quality of all Murex configurations and to enhance the quality and performance of the system.

Your responsibilities will include a liaison role between the business (traders, back office & middle office personnel) and the Murex configuration team.

Becoming knowledgeable on Murex Systems and tweaking the configurations to meet the client's requirements is key in this function.

In a nutshell, this is a role requiring financial knowledge as well as technical skills, as you will be working closely with both the business stakeholders and the technology teams, acting as a bridge; understanding the business requirements and issues; proposing solutions and translating the business needs into a system functionality that works.

After the "Training" period, you will work on client premises in the Middle East, Europe, and other locations.

***** YOUR TEAM *****

Your role will be in the Murex program team in Middle East, Europe, America or Tunisia (the team is a global team).

***** WHAT WE OFFER *****

Together. That's how we do things. We will build you and make you ready to take on any Capital Market project, whether its functional or technical, you will become a Murex expert.

Murex is the world leading Financial software used by more than 75 % of all major financial institutions, including Federal reserves and central banks. Only a select few partners (such as KARTESY) have access to Murex's extended courses, manuals, documents and testing environments, making KARTESY a Key player in forming the future Murex experts, the leading technology regulating and managing Banks worldwide.

!!! COMPETITIVE REMUNERATION !!!

!!! VERY ATTRACTIVE BONUSES BASED ON RESULTS AND INDEXED ON THE US DOLLAR !!!

***** REQUIRED SKILLS *****

- Appetite for learning !
- General knowledge of Capital Markets
- Technical skills: SQL, Unix, XSL (Xml)
- Microsoft products (Words, Excel, Power Point, VBA...)
- Good level in English and French
